<u>Overview</u>

Fort Collins Office

12 Mo Deliveries in SF

12 Mo Net Absorption in SF

6.6%

Market Asking Rent Growth

1.4%

While markets across the country grapple with demand challenges stemming from low office utilization, the Fort Collins office market has remained relatively resilient. The vacancy rate has ticked up by about one percentage point from the previous year, but at 6.6%, still remains just above the long-term average of 5.7%. Comparatively, the U.S. average vacancy rate of 13.9% is more than double the vacancy observed in Fort Collins. Still, activity has slowed in the past year as the historic increase in interest rates and the uncertain economic environment have companies focused on costcutting measures. Sublease availability remains stubbornly high and will continue to be a drag on the office sector's recovery. Currently, there's roughly 170,000 SF of available sublease space in Fort Collins, which represents about 1.4% of the total office market.

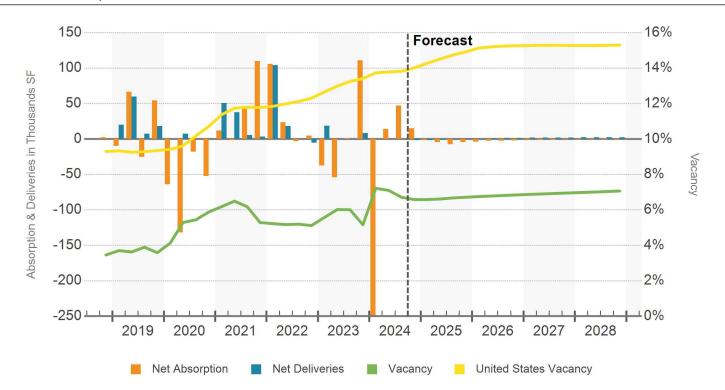

Fort Collins office rents have held up well relative to the national average. Rents average \$25.00/SF after increasing by 1.4% in the past year. Nationally, rents grew by 0.9% over the past year.

Under Construction Properties

UNDER CONSTRUCTION PROPERTIES

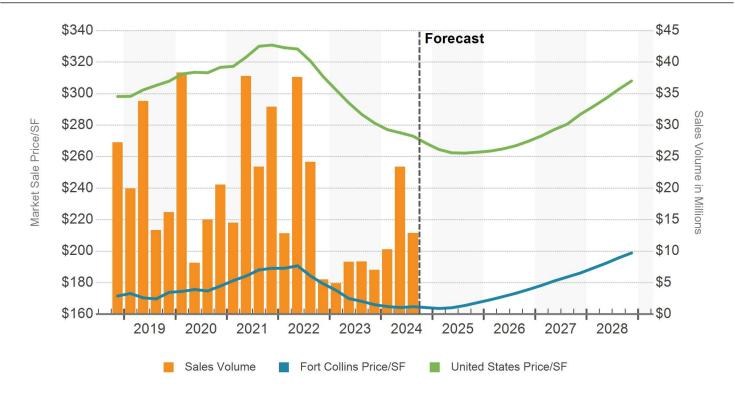

Most office sales in Fort Collins involve smaller private investors, although a growing number of institutional investors have entered the Fort Collins market in the last several years. Average pricing is about \$165/SF, offering a significant discount relative to office properties that trade in nearby Denver at an average of \$220/SF.

The metro does not have a large amount of institutional grade stock. There are only five non-government 100,000 SF-plus office buildings in the metro, four owned by local investment/development firms, and another owned by Hewlett-Packard (but recently sold).

While tremendous ongoing growth in Northern Colorado's I-25 corridor is attractive, the office market here is largely controlled by local or, less frequently, regional players. Most office assets trade for under \$5 million.

In one of the largest recent deals, a private investor sold a 6,800-SF office property at 2024 E Harmony Road for \$3.2 million to Keele & Park Real Estate, LLC. The property was 100% leased at the time of sale in August 2023 to tenants including Geico and Chiro Now and traded for \$468/SF, significantly above the market benchmark.

While many might consider Fort Collins a college town, the city's economic strength stems from the diversity of the employers located in the market. Colorado State University's influence cannot be disregarded, however, as it plays a vital role in drawing the city's high-paying employers. Because of the university's resources and research facilities and the steady supply of educated graduates, more than 20 Fortune 500 companies are located in the metro, including Hewlett-Packard, AMD, and Intel. These firms can take advantage of partnerships with the school and its research labs, incubating an employee base already experienced in

fieldwork.

The Fort Collins Area Chamber of Commerce is implementing a regional strategic initiative, called Northern Colorado Prospers (NCP) 2.0, to spur local economic growth. According to the Chamber, this initiative will shift resources to accelerate and reignite businesses and the local economy, take talent attraction and retention to the next level, expand the scope of the existing transportation goal, and implement a proactive effort to ensure a business-friendly operating environment.
